MEMORANDUM FOR THE RECORD

SUBJECT: Request From the Office of Senator Richard S. Schweiker  
(R., Pa.) - MKULTRA Related Matter

25X1 1. [ ] On 2 October 1978, I received a telephone call from Charlie Powers, of Senator Schweiker's office, who was inquiring about an MKULTRA related matter. Mr. Powers wanted to ascertain if CIA had at any time made public the fact that the Pedlow Nease Company located in Lockhaven, Pennsylvania was one of the institutions involved in MKULTRA. After checking with [ ] OTS; [ ] OGC; and [ ] [ ] IPS, I advised Mr. Powers that we had released the Pedlow [ ] name under the FOIA in an MKULTRA context (see Tab A).

25X1 2. (C) Mr. Powers called me on 10 October and wanted to know whether we had ever made public the fact that [ ] was a witting participant in the MKULTRA project. Again, after checking with the aforementioned persons, I assured Mr. Powers that CIA had not made this fact public. (NOTE: During our discussions, Mr. Powers indicated that his interest in this matter revolved around an allegation that appeared recently in an unnamed magazine that the drug yohimbine is in fact an aphrodisiac. A query to [ ] resulted in the attached memorandum under Tab B.)

6 October 1978

MEMORANDUM FOR: Office of Legislative Counsel

ATTENTION :

SUBJECT : Senator Sweiker/MKULTRA

1. Per your telephoned request of 3 October 1978, attached are two documents copied from MKULTRA Sub-Project #20, dated 27 November 1953 and 18 November 1953. These documents relate to a contractual arrangement for the production of the "di-Mannich of yohimbine" from two pounds of yohimbine hydrochloride. Please note that in their present unsanitized form, these documents are considered classified.

2. There is nothing in the file to indicate the reason for making this compound nor for the interest in yohimbine. As a result of this request, two references were checked:

A. Clinical Toxicology of Commercial Products, Gosselin, Hodge, Smith and Gleason; 4th Edition, 1976: "Once reputed to be an aphrodisiac, but it has no proved therapeutic uses."

B. Physician's Desk Reference; 31st Edition, 1977: "Andro Medicone (Reg. T.M.) tablets containing yohimbine hydrochloride; Indicated for sexual feebleness of psychogenic origin."

It seems likely that at the time this work was performed the product was believed to be an aphrodisiac.
